

ETS -Service Desk Submission

TUTORIAL

www.exchangetech.ca

START

Method 1

Email Us

You can send an email to
servicedesk@exchangetech.ca

and we will respond in priority order.

NEXT

Method 2

Call

Call our dedicated support number
1-855-683-3310

NEXT

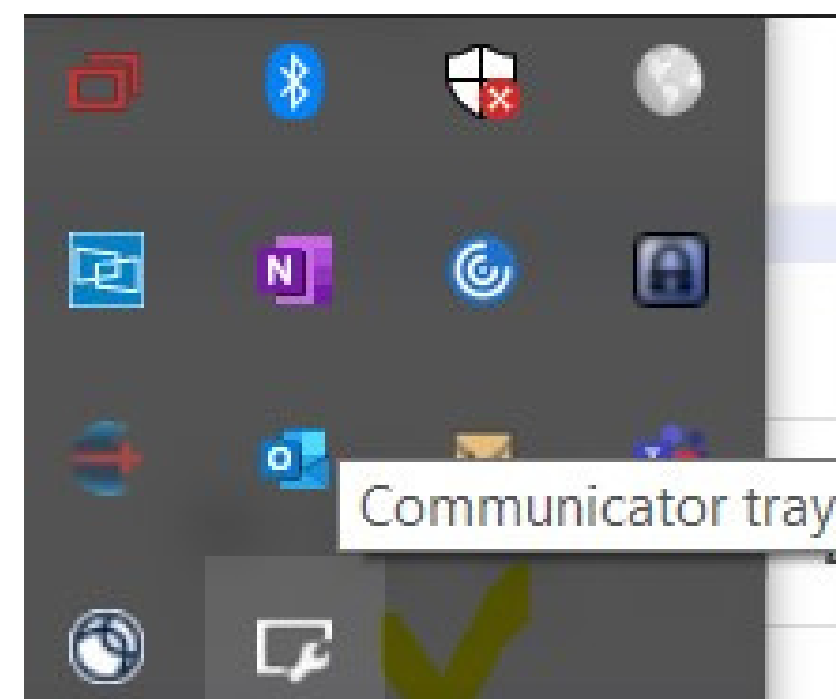

Method 3

Use the ETS Agent Software

*Note - This method requires the ETS agent software to be installed on your computer. We deploy this software to the supported computers of our client companies. If you are missing this, please let us know.

From the bottom right corner of your Windows desktop, click the “up arrow” to reveal all your tray applications. You will see an icon (highlighted below) that looks like the monitor with a wrench in front of it. If you hover your mouse pointer over it, the words, “Communicator tray”, will display. You can either open the application by double clicking on it, or right click and select, “**Create Ticket**”.

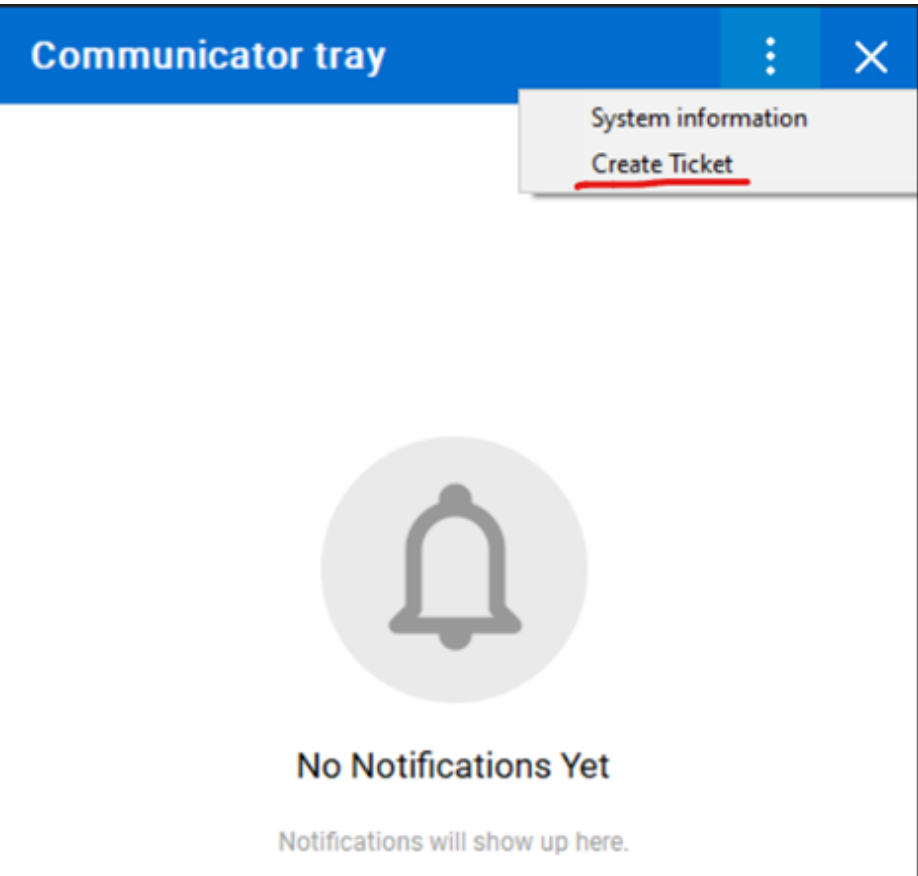

NEXT

Method 3

Use the ETS Agent Software

You will be presented with a “**Create A Ticket**” window.
Please enter your ticket information and click “**Send**”

Create a Ticket

Name:

Amandeep

Phone:

+1

Email:

ahans@exchangetech.ca

Ticket Subject:

Testing ticket creation

Description:

Testing ticket creation through communicator tray
if this creates a ticket in RMM?

Send

Ticket Sent

Ticket has been sent successfully

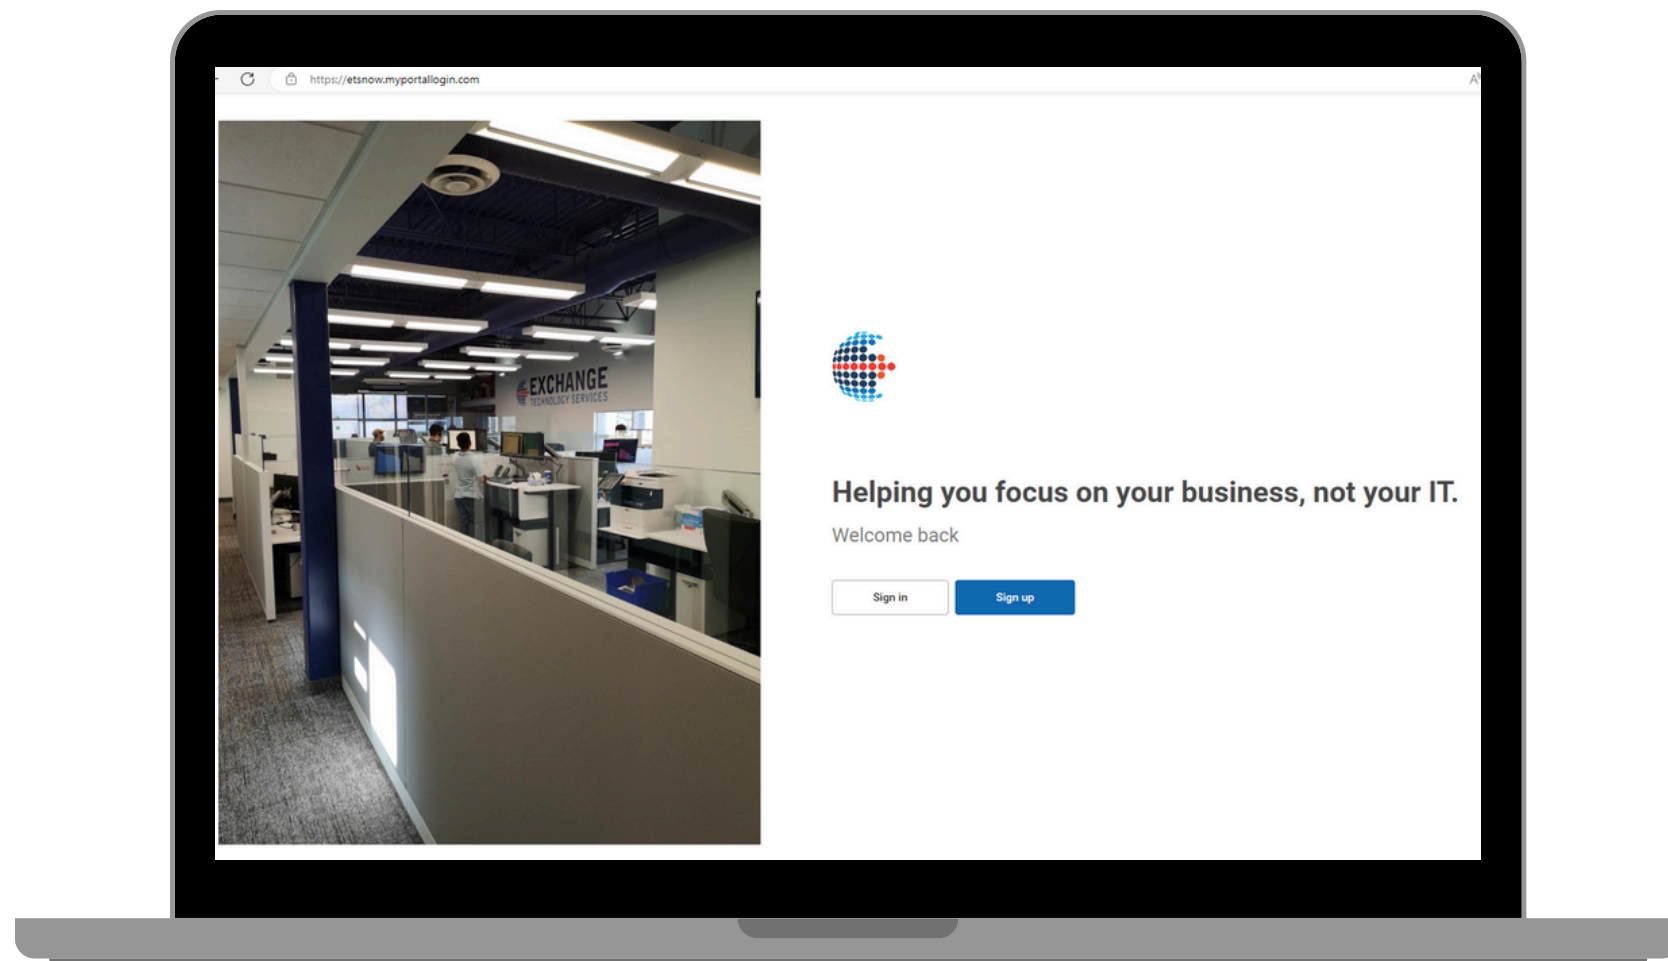

NEXT

Method 4

Log in to the ETSNOW Service Desk Portal

You can log into the ETSNOW Service Portal from an Internet Browser

NEXT

Method 4

For those departments and individuals with assigned access, you can also submit and track tickets with the ETSNOW webtool.

The Tickets submitted from this system are typically for standard processes like new hires, change of positions, access requests, and hardware requests. This method of ticket submission is not typically used for basic technology issues and incidents.

Method 4

ETSNOW WebTool

Step One:

The link will take you to a login/registration page.

<https://etsnow.myportallogin.com/>

NEXT

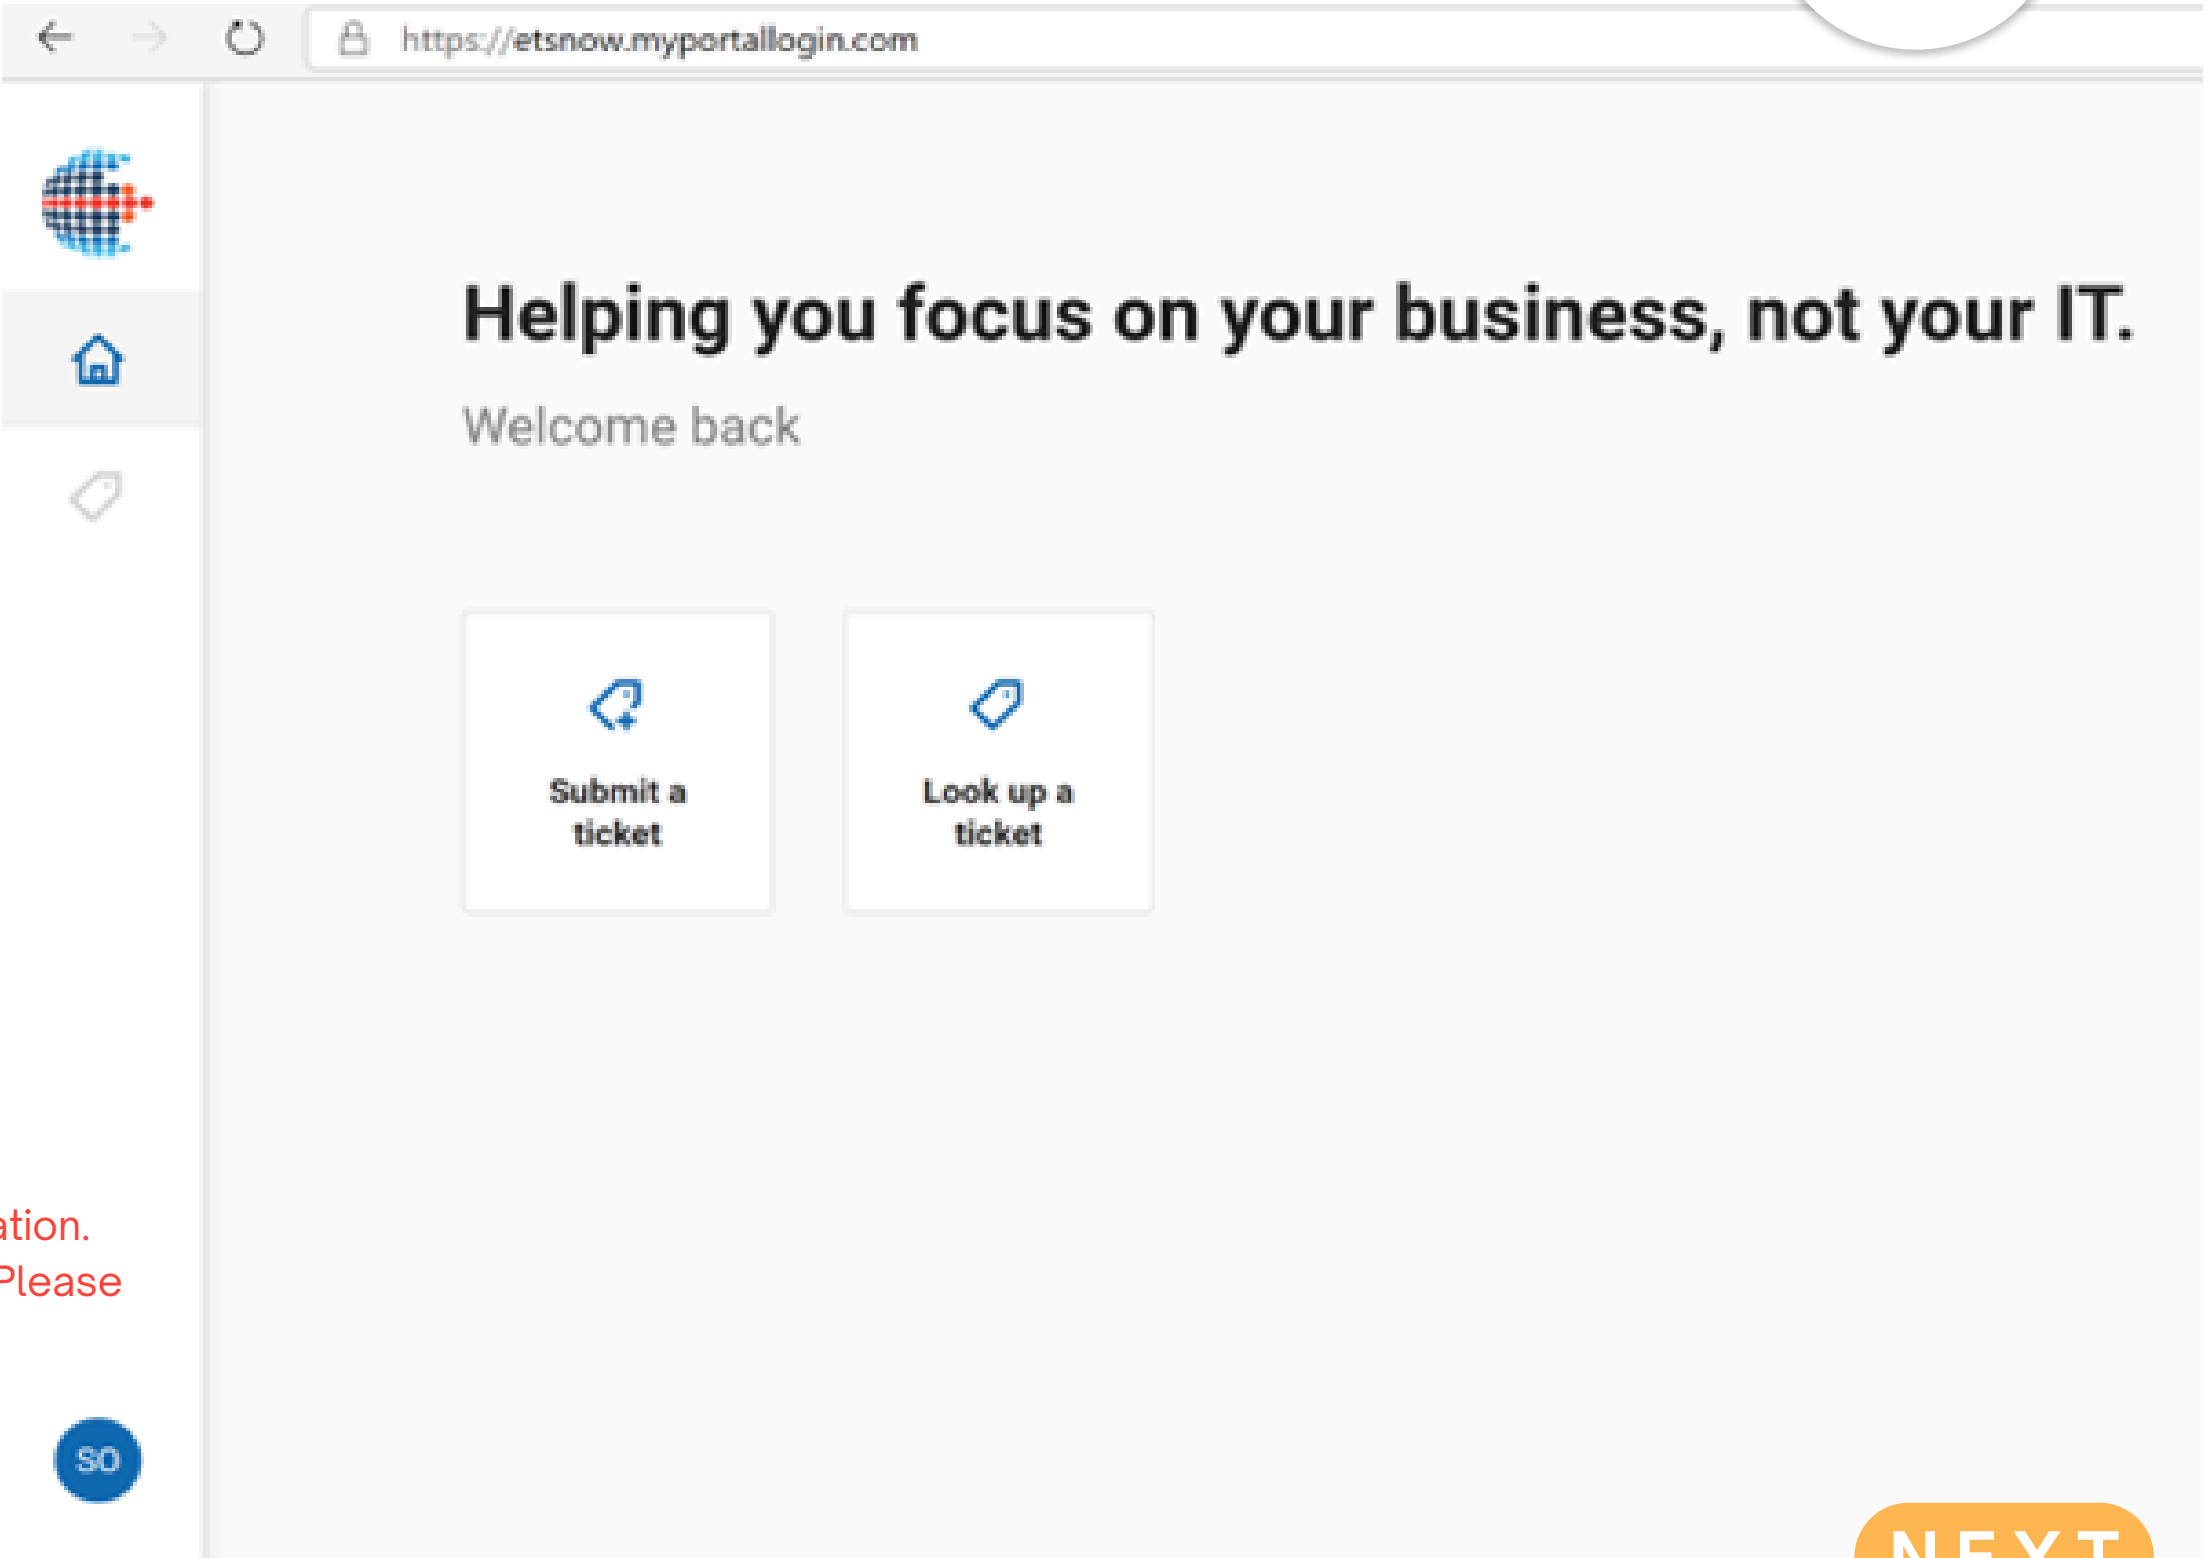

Method 4

ETSNOW WebTool

Step Two:

Once you login, you can raise a ticket and check on the status of your current tickets.

****Sign in credentials to either be provided by ETS or upon self-registration. Additional permissions are needed to submit tickets, once registered. Please ask an ETS rep for access assistance. ****
