

INCIDENT AND INVESTIGATION REPORT

FORM MUST BE SUBMITTED WITHIN 24 HRS OF INCIDENT TO HEALTH AND SAFETY OFFICE

SECTION 1: INJURED/REPORTING PERSON

FORM# [FOR OFFICE USE]

Last Name:	First Name:	Position:
Employee ID/clock#:	Supervisor:	Department:

SECTION 2: DESCRIPTION OF THE INCIDENT

Date of Incident:			Time:		Date of Reporting:			Time:		Incident Reported to:
DD	MM	YY		am	DD	MM	YY		am	
				pm					pm	

INCIDENT TYPE	☐ Near Miss (an unplanned event which did not result in injury, illness, or damage – but had the potential to do so)
	☐ First Aid Injury (Minor injury requiring first aid, no outside medical aid was required)
	☐ Medical Aid (injured person required professional medical assistance)
	☐ Property damage and/or material loss but no harm/injury to a person(s)
	☐ Motor Vehicle Accident (any accident involving a motorized vehicle)
	☐ Occupation Illness (medical condition resulted from exposure in the workplace to a phys/chem/biolog/ager)

Incident location (plant, office, yard, job site etc.):

Incident scene was secured and physical evidence was left undisturbed: ☐ yes ☐ no

INCIDENT DESCRIPTION

Describe the sequence of events before and after the incident. The description should include *who, what, where, how* and *when* of the incident. People and equipment involved. Attach any photos if relevant.

Name and phone number of witness(es):

Additional Information attached ☐

RISK CATEGORY (REFER TO INSTRUCTIONS ON PAGE 3)

What level of Risk is present if not corrected?

SEVERITY: ☐ Major ☐ Moderate ☐ Minor PROBABILITY: ☐ High ☐ Medium ☐ Low

SECTION 3: MEDICAL AID INFORMATION

☐ Head	Left	Right	Left	Right	Mark the injured part of the body 	Nature of injury: ☐ Musculoskeletal Injury ☐ Falling object ☐ Hit by machinery ☐ Struck by ☐ Slip/Trip/Fall ☐ Cut by glass ☐ Hand tool injury ☐ Exposure to heat/cold
☐ Face	☐ Shoulder	☐	☐ Hip	☐		
☐ Eye(s)	☐ Arm	☐	☐ Thigh	☐		
☐ Ear(s)	☐ Elbow	☐	☐ Knee	☐		
☐ Chest	☐ Forearm	☐	☐ Lower leg	☐		
☐ Back	☐ Wrist	☐	☐ Ankle	☐		
Onset:	☐ Hand	☐	☐ Foot	☐		
☐ Sudden	☐ Finger(s)	☐	☐ Toe(s)	☐		
☐ Gradual					Injured person's dominant hand: ☐ R ☐ L	

Worker status: ☐ Returned to his/her regular job after the incident

☐ Modified work was offered

☐ First Aid was provided

☐ Was referred to a medical professional

Date/time of First Aid:

Name of First Aider:

Is there time lost from work due to this incident? ☐ YES ☐ NO If "YES" complete the line below

Date last worked:

Time last worked:

Date returned to work:

INCIDENT AND INVESTIGATION REPORT

SECTION 4: INCIDENT INVESTIGATION

Is there a written Standard Operating Procedure (SOP) or job hazard analysis (JHA) for this job/task?	☐ YES	☐ NO
Has this worker received training relevant to the activity involved?	☐ YES	☐ NO

IMMEDIATE CAUSES

What actions and/or conditions contributed to the incident? Check below, explain here:

☐ Horseplay willful misconduct	☐ Inadequate housekeeping	☐ Improper ventilation
☐ Improper tools/equipment/PPE	☐ Unsafe loading, lifting, placing	☐ Failure to follow SWP
☐ Servicing equipment in operation	☐ Unsafe position or posture	☐ Failure to use PPE
☐ Hazardous method or procedure	☐ Making safety device inoperable	☐ Hazardous environment
☐ Unsafe tools or equipment	☐ Operating without authority	☐ Inattention to task
☐ Improperly labelled or identified	☐ Using equipment improperly	☐ Other condition
☐ Inadequate clearance, workspace	☐ Unsafe design or arrangement	☐ failure to secure

ROOT CAUSES (REFER TO INSTRUCTIONS ON PAGE 3)

What factors caused the incident? Conduct a 5-Why analysis, check below, explain here:

☐ Inadequate leadership/supervision	☐ Inadequate design	☐ Inadequate maintenance
☐ Lack of training, knowledge	☐ Inadequate SWP	☐ Improper/incorrect motivation
☐ Lack of skill, experience	☐ Inadequate risk assessment	☐ Other

PREVENTIVE AND CORRECTIVE ACTIONS

☐ Actions to improve design/method	☐ Improve housekeeping procedure	☐ Repair/replace equipment
☐ Remove hazard	☐ Install guard or safety device	☐ Improve preventive maintenance
☐ Substitution	☐ Conduct Job Hazard Analysis	☐ Provide hazard specific training
☐ Correction of congested area	☐ Provide appropriate PPE	☐ Supervisor to conduct task
☐ Action to improve work procedure	☐ Provide proper ventilation	☐ analysis before assigning the task
☐ Discipline	☐ Reassignment of person(s) involved	☐ Other
☐ Ergonomic assessment	☐ Re-instruction of person(s) involved	

Description of action(s) to be taken to mitigate the risk or control the hazard:	Completed	Planned	
		Expected date (DD/MM/YY)	Completion date (DD/MM/YY)
1	☐ YES		
2	☐ YES		
3	☐ YES		
4	☐ YES		
5	☐ YES		

Will the actions identified correct the root cause?	☐ YES	☐ NO
Were corrective actions communicated to all affected individuals?	☐ YES	☐ NO

SIGNATURES

Injured / Involved Person (print):	Signature:	Date:	Phone#
Supervisor (print):	Signature:	Date:	Phone#
Department Manager (print):	Signature:	Date:	Phone#

INCIDENT AND INVESTIGATION REPORT

INSTRUCTIONS FOR COMPLETING THIS FORM

INCIDENTS THAT MUST BE REPORTED:

- **Near Miss:** Refers to an incident caused by an unsafe act or condition which could have resulted in injury or property loss. Examples include near miss, fire/explosion, hazardous material spill, property damage >\$2000.
- **First Aid Injury:** A minor injury where treatment is carried out by first aid measures (e.g. bandage, cold pack).
- **Medical Aid:** An injury which requires treatment or care by a health care professional.
- **Property damage and/or material loss** but no harm/injury to a person(s)
- **Motor Vehicle Accident:** any accident involving a motorized vehicle
- **Occupation Illness:** Condition resulted from exposure in the workplace to a physical, chemical or biological agent to the extent that the health of the worker is impaired.

INCIDENT INVESTIGATIONS

An investigation must be performed following all hazardous situations (near misses), medical aid and lost time injuries. The Department manager is required to sign off on investigations to confirm correction actions will be completed.

RESPONSIBILITIES

Worker responsibilities:

- 1 Promptly seek appropriate medical attention
- 2 Notify supervisor as soon as possible of injury/illness, relevant healthcare and restrictions.
- 3 Participate in completion of Incident and Investigation Report by providing information about the incident and how it could be prevented.
- 4 Provide information as required to the Workplace Safety & Insurance Board (WSIB), and participate in the company's Early and Safe Return to Work Program.

Supervisor responsibilities:

- 1 Ensure the injured worker receives prompt and appropriate first aid and/or medical attention.
- 2 Provide immediate transportation for the injured employee to emergency healthcare (via Reception).
- 3 Complete the Injury and Investigation Report and submit within 24 hours to the Health & Safety Office /HR. If incomplete, resubmit form when all signatures have been obtained and corrective actions identified.
- 4 Conduct an investigation and take corrective actions to prevent recurrence.
- 5 Identify potential suitable modified work for the worker and participate in the Early and Safe Return to Work Program.

CRITICAL INJURY (O.REG.834) - Critical injury is defined as an injury of a serious nature that:

- places life in jeopardy;
- produces unconsciousness;
- results in substantial loss of blood;
- involves the fracture of a leg or arm, but not a finger or toe;
- involves the amputation of a leg, arm, hand or foot, but not a finger or toe;
- consists of burns to a major portion of the body; or
- causes the loss of sight in an eye.

In the event of a critical injury, supervisors are responsible for:

- 1 Obtaining immediate emergency medical attention.
- 2 Securing the incident site and ensuring that further injury is prevented.
- 3 Calling 911 or Health & Safety Office/HR to report the critical injury.
- 4 Ensuring that the site remains secure until cleared by H&S, Police or MOL.
- 5 Cooperating with the Health and Safety Office/HR and Ontario Ministry of Labour throughout the course of investigation

RISK CATEGORY DEFINITIONS

SEVERITY	PROBABILITY
MAJOR - Danger of death, permanent disability, e.g. critical injury, major or multiple fractures, significant property damage	HIGH - event could happen frequently because exposure to the hazard is likely
MODERATE - Medical treatment required by a doctor, e.g. burns, fractures or lacerations, moderate property damage.	MEDIUM - event is probable; foreseeable varying conditions are present and event is known to have occurred occasionally.
MINOR - Negligible personal harm or property damage, minor cuts, burns or bruises.	LOW - event is very improbable; a result of a rare combination of circumstances; known to have occurred very infrequently.

ROOT CAUSE ANALYSIS – 5-WHY METHOD

State the Problem	Root Cause?
Why did this occur?	☐ Yes ☐ No
Why did this occur?	☐ Yes ☐ No
Why did this occur?	☐ Yes ☐ No
Why did this occur?	☐ Yes ☐ No
Why did this occur?	☐ Yes ☐ No
Why did this occur?	☐ Yes ☐ No

☐ Corrective Action

1. State the Immediate cause (the problem). This can be repeated if there are several immediate causes.
2. Think about reasons why the problem occurs; what conditions allowed the event to occur? – begin by looking at factors arising from People, Equipment, Materials, Environment, and Process (PEMEP).
3. If the answer doesn't identify the source (i.e. root cause) of the problem, ask 'why?' again and repeat the process.
4. Loop back to step three until it is agreed that the root cause has been identified. This may take fewer or more than five 'whys?'
5. Once the root cause is identified, take corrective action to correct the root and any associated causes.
